DOL Limiting Choices in IRAs

mr james amberger 89 eltingville blvd Staten Island, NY 10312-3842

9/2/2015

Dear Labor:

i whole heartedly agree that there should be a fiduciary responsibility for anyone administering retirement accounts. the department of labor should protect the average american from being taken advantage of by brokers or institutions who do not have the clients welfare and finances as their primary responsibility. even if this means there is some limit of choices.

Sincerely,

mr james amberger
